

Easy Fit Wirefree Alert Kit

portable chime alert with 'plug 'n play' transmitter

- convert your PIR light product to wirefree operation quickly & easily
- battery powered portable chime alert with 'plug 'n play' wirefree transmitter
- choose from 5 different alert tones
- adjustable chime alert volume
- 'snooze' mode to avoid unwanted alerts when working outdoors, barbecuing etc.
- compatible with the 'Nano' series of PIR security lights

product benefits

Fitted in minutes, the ALERT kit provides an audible warning INDOORS when motion is detected OUTDOORS by your PIR sensor light (not included) - 24 hours a day - without the need for wires or cables. Simple, effective security.

key product features

Converting your light is as easy as 1-2-3....

Simply plug the wirefree transmitter module into the socket on the underside of the light fitting.

Install 3 x AA batteries into the chime alert receiver.

Follow the simple push-button programming instructions to 'pair' your chime alert with the transmitter, and select your chosen alert tone.

That's all it takes to make your home a safer, more secure place to live.
